

SHRIKANT TALEKAR

Electronics & Telecommunication Engineering Student | IoT, Embedded Systems & AI Application Development

Pune, Maharashtra, India | +91 8055164128 | shrikanttalekar17@gmail.com | shrikanttalekar.in | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Electronics & Telecommunication Engineering student (SPPU) with hands-on project experience in IoT automation and applied Generative AI, including a self-built and publicly deployed conversational AI voice assistant. Comfortable working across the stack from embedded sensors to cloud deployment. Seeking an internship in IoT / Embedded Systems, VLSI, or AI-driven App & Web Development to contribute to real-world engineering problems.

TECHNICAL SKILLS

- **Programming Languages:** Python (Intermediate), C (Basics), Java (Intermediate), HTML, CSS
- **AI / Generative AI:** Google Gemini API, Google AI Studio, Prompt Engineering, Function Calling, Conversational AI Design
- **IoT & Embedded Systems:** Microcontrollers, Sensor Interfacing, Circuit Design, Home/Field Automation
- **Tools & Platforms:** Git & GitHub, Google Cloud Run, VS Code, Microsoft Excel (Business Analytics)
- **Core Engineering:** Electronics & Communication Fundamentals, Basic Data Structures & Algorithms
- **Areas of Interest:** IoT & Embedded Systems, VLSI & Digital Design, AI-Based App & Web Development

PROJECTS

Leo – Real-Time Conversational AI Voice Assistant — [Live Demo](#)

Personal Project

- Built a real-time, voice-controlled AI assistant using Google AI Studio and the Gemini API, with function-calling to let users complete tasks through a single spoken command.
- Designed emotion- and tone-aware response generation to create a more natural, human-like conversational experience.
- Deployed the assistant as a live, publicly accessible web application on Google Cloud Run.

Smart Irrigation System – IoT-Based Water Motor Automation

Academic Project

- Developed an IoT system to remotely control a water motor from a mobile phone.
- Integrated sensors with a microcontroller to automate irrigation based on real-time field conditions.
- Reduced manual monitoring effort and improved irrigation efficiency for farmers.

Personal Portfolio Website — [Live Site](#)

Personal Project

- Designed and built a personal portfolio website to showcase projects, skills, and resume to recruiters.
- Structured and deployed the site independently, handling both front-end design and hosting.

CERTIFICATIONS

- Oracle Cloud Infrastructure – AI Foundations Certification, **Oracle**
- Business Analytics with Microsoft Excel, **Microsoft**
- Embedded Systems using C, **Coursera** (authorized by EDUCBA) — Verified July 2026
- Technology Job Simulation (Coding & Development), **Deloitte** via Forage — Completed July 2026

EDUCATION

Bachelor of Engineering (B.E.) – Electronics & Telecommunication Engineering

2024 – Present

Sinhgad Institute of Technology, Pune — Savitribai Phule Pune University (SPPU)

CGPA: 8.2 / 10
